

Banner Stand Materials and Specs

Materials (one stand):

- 3 - 3/4" x 10' PVC pipe
- 2 - 3/4" elbows
- 6 - 3/4" tees
- 4 - 3/4" end caps

Directions:

1. Cut four 12" pieces for the feet.
2. Cut two 13" pieces for the bottom of side uprights.
3. Cut two 32" pieces for middle of side uprights.
4. Cut two 26" pieces for top of side uprights.
5. Cut three 30" pieces for top, middle and bottom crossbars.

To assemble:

1. Connect two 12" feet with a tee and put an end cap on each end.
2. Put one 13" piece into the tee for the bottom of a side upright.
3. Put a tee onto the 13" piece.
4. Put a 32" piece into that tee for the middle section of the upright.
5. Put a tee onto the 32" piece.
6. Put a 26" piece into that tee for the top section of the upright.
7. Put an elbow on the top.
8. Repeat steps 1-7 for the 2nd upright.
9. Put the three 30" crossbars between the two uprights.

You can use vinyl wire ties to hang the banner from the top crossbar. You can leave the banner on the crossbar with the elbows still on it. If you roll up the banner around the crossbar, it will fit into the banner tube.
